

# **CEO Update to CCRHB**

**1 February 2019**

**James K. Gilman, MD**

**MG, USA (ret)**

# **Mourning the Loss of NIAMS Director Stephen Katz, M.D., Ph.D.**

**He fought many battles for us ...**

**The Clinical Center has lost one of its best friends and we will miss him greatly.**

# Average Daily Census

as of December 31, 2018

## ADC Stats

- 3-Year Average (FY 2015-2017) = 126.6
- Year End FY 2018: 113.9
- Year-to-Date FY 2019 (as of 12/31/2018): 101.8

# Maximizing the Utilization of the CC

---

- **New subcommittee of CC Governing Board (CCGB):**
  - Chair: Dr. Walter Koroshetz, Director, NINDS
  - 7 IC Directors
- **Trends on Horizon:**
  - CCE Expansion
  - New focuses on Alzheimer's/Dementia; Opioid Use Disorders; Pain Management
  - Shift to Outpatient/Day Hospitals
- **Facilities Update:**
  - Plans underway for hospice suites to include pediatrics patients
  - Plans continue for new lab/surgery/radiology facilities

# Recent Appointments

---

**Norman E. "Ned" Sharpless, MD**  
Director, National Cancer Institute (NCI)  
Chair, Clinical Center Governing Board  
(CCGB)

**Suzanne Wingate, PhD, RN, ANP-BC**  
Clinical Director, National Institute of  
Nursing Research (NINR)  
Chair, Medical Executive Committee

**Jonathan Green, MD, MBA**  
Director, Office of Human Subjects  
Research Protections (OHSRP), NIH

# Closeout: 2018 Projects

---

- **Protocol Resource Impact Assessment (PRIA) – FINALIZED!**
- **Implicit Bias Training – more than 2000 completed training!**
- **Outpatient Clinics & Day Hospitals – much improved**
- **Conquer CC Space: The Last Frontier – LAGGING!**
- **Leadership Development – first class begins 11 January!**

# CC Leadership Training Opportunities

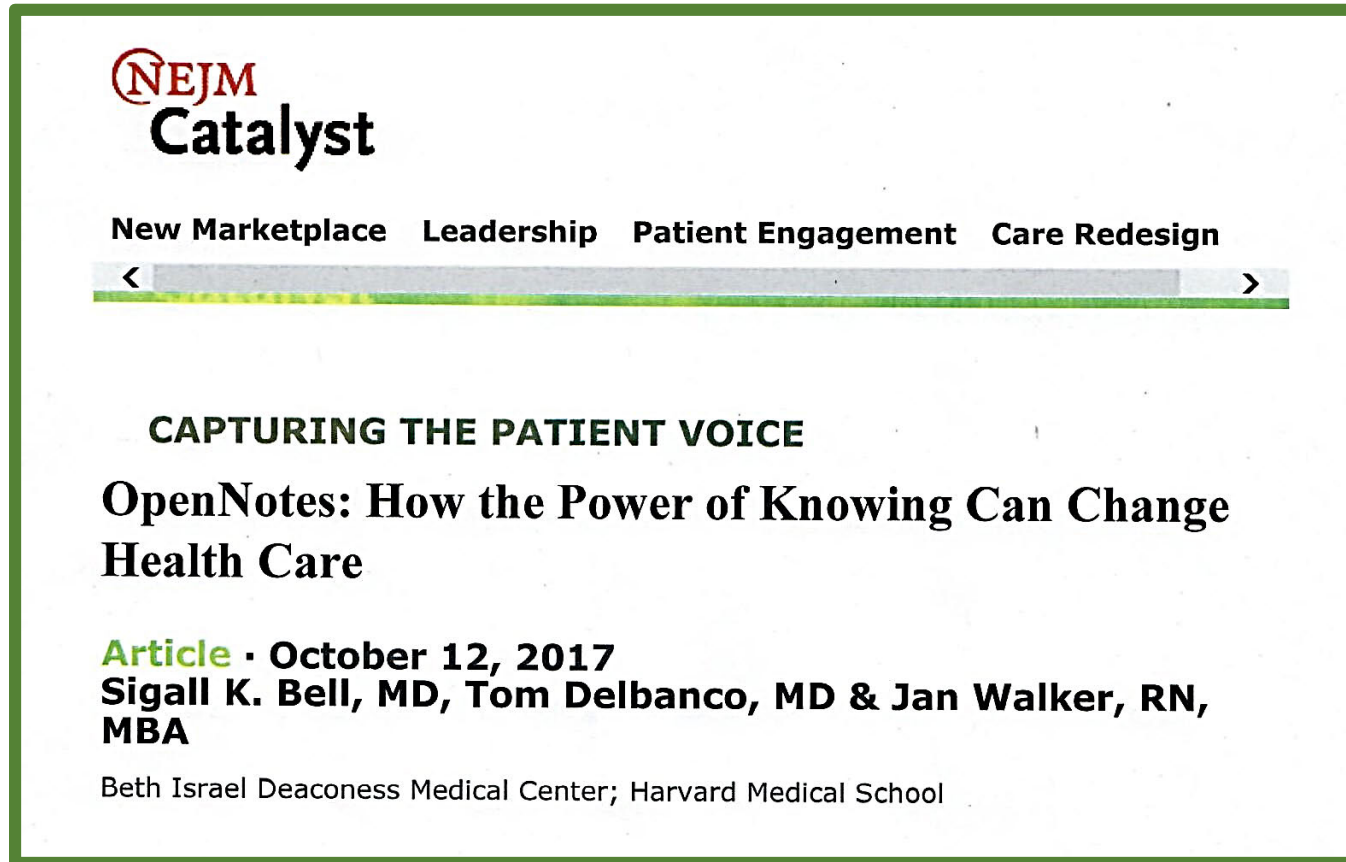

Training Program	2018 Participants	2019 Participants
CC Fundamentals in Leadership <b>(NEW!)</b>	N/A	Cohort 1 – 21 Participants <i>More sessions to be announced (TBD)</i>

- **Clinical Space**
- **Professionalism**

} Related – *staff safety* –  
but not the same

## WE, THE NIH CLINICAL CENTER, LOVE OUR PATIENTS & THEIR FAMILIES

We Have High Hopes for your Health, Well-being and Safety.

**AND**

We Have Expectations of Both our Staff Members & Patients:

- 1 Profanity and / or abusive language is unacceptable.
- 2 Physical threats or overt physical violence may be reported to the campus police.
- 3 Regardless of intentions, sexual harassment and gender harassment will be reported to the NIH Civil Program Office.
- 4 If you have concerns about hospital staff behavior, please report this information to your physician, nurse, and/or your Patient Representative at 301-496-2626 or [ccptrep@mail.nih.gov](mailto:ccptrep@mail.nih.gov).

**Remember:**

# Harassment Doesn't Work Here!

**Dr. James Gilman**  
NIH CC CEO

**CAPT Antoinette Jones**  
NIH CC Patient Representative

# CC Anti-Harassment Workgroup

---

- **Membership:** Multidisciplinary team composed of NIH and CC staff.
- **Goal:** Develop a multifaceted program that addresses inappropriate behavior and harassment by patients and visitors towards staff in the Clinical Center.
- **Multi-Pronged Approach:** Foster an organizational culture that encourages staff, patient and visitor safety.

# Unprofessional Behavior in the Workplace

---

Issue 24      June 2016

**Bullying has no place in health care**

**Issue:**  
Civility is a system value that improves safety in health care settings. The link between civility, workplace safety and patient care is not a new concept. The 2004 Institute of Medicine report, "Keeping Patients Safe: Transforming the Work Environment of Nurses," emphasizes the importance of the work environment in which nurses provide care.<sup>1</sup> Workplace incivility that is expressed as bullying behavior is at epidemic levels. A recent Occupational Safety and Health Administration (OSHA) report on workplace violence in health care highlights the magnitude of the problem: while 21 percent of registered nurses and nursing students reported being physically assaulted, **over 50 percent** were verbally abused (a category that included bullying) in a 12-month period. In addition, 12 percent of emergency nurses experienced physical violence, and **59 percent** experienced verbal abuse during a seven-day period.<sup>2</sup>

Culture of Medicine

## Perspective: **A Culture of Respect, Part 1: The Nature and Causes of Disrespectful Behavior by Physicians**

Lucian L. Leape, MD, Miles F. Shore, MD, Jules L. Dienstag, MD, Robert J. Mayer, MD, Susan Edgman-Levitan, PA, Gregg S. Meyer, MD, MSc, and Gerald B. Healy, MD

### Abstract

A substantial barrier to progress in patient safety is a dysfunctional culture rooted in widespread disrespect. The authors identify a broad range of disrespectful conduct, suggesting six categories for classifying disrespectful behavior in the health care setting: disruptive behavior; humiliating, demeaning treatment of nurses, residents, and students; passive-aggressive behavior; passive disrespect; dismissive treatment of patients; and systemic disrespect.

At one end of the spectrum, a single disruptive physician can poison the atmosphere of an entire unit. More

common are everyday humiliations of nurses and physicians in training, as well as passive resistance to collaboration and change. Even more common are lesser degrees of disrespectful conduct toward patients that are taken for granted and not recognized by health workers as disrespectful.

Disrespect is a threat to patient safety because it inhibits collegiality and cooperation essential to teamwork, cuts off communication, undermines morale, and inhibits compliance with and implementation of new practices. Nurses and students are particularly at risk, but disrespectful treatment

is also devastating for patients. Disrespect underlies the tensions and dissatisfactions that diminish joy and fulfillment in work for all health care workers and contributes to turnover of highly qualified staff. Disrespectful behavior is rooted, in part, in characteristics of the individual, such as insecurity or aggressiveness, but it is also learned, tolerated, and reinforced in the hierarchical hospital culture. A major contributor to disrespectful behavior is the stressful health care environment, particularly the presence of "production pressure," such as the requirement to see a high volume of patients.

# Unprofessional Behavior in the Workplace

---

## *Professional Practice*

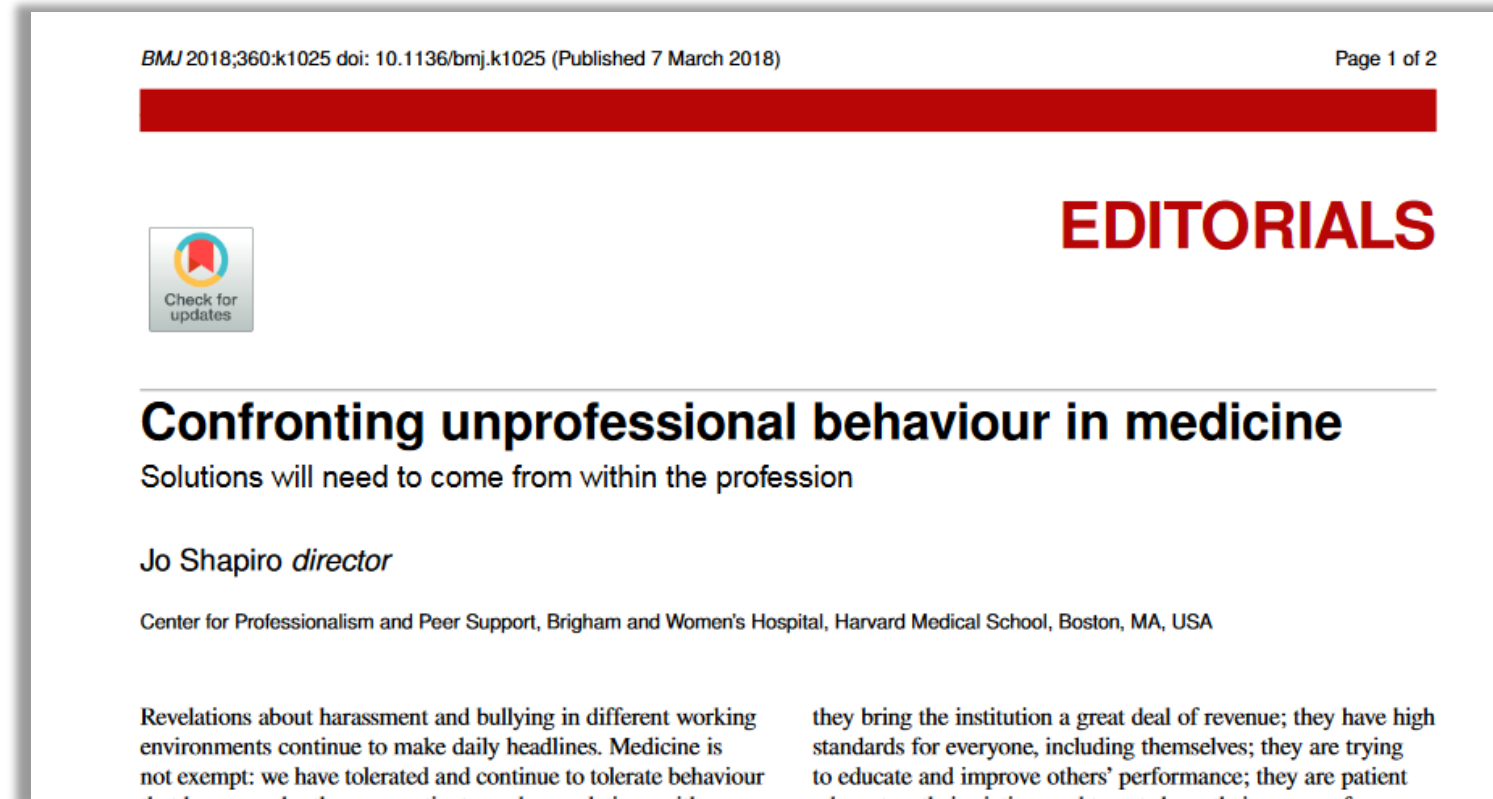

### **Horizontal Violence in Nursing**

Jennifer Becher  
Constance Visovsky

**T**o achieve high-quality care, professional teamwork among nursing staff is imperative. Teamwork is a critical element for achievement of positive patient outcomes (Joint Commission, 2008). Teams achieve

*Horizontal or lateral violence is considered an act of aggression among nursing professionals. Horizontal violence creates a negative work environment impairing teamwork and compromising patient care. The effects of horizontal violence and strategies for prevention and management are addressed.*

# Unprofessional Behavior in the Workplace

**Dr. Jo Shapiro will visit the Clinical Center on July 23 – 24, 2019  
to meet with the MEC and Patient Safety leaders; then,  
present Grand Rounds to the CC community**

# CC Strategic Planning

---

- **Current Priority:** Strategic Planning Reboot – v. 2.0
  - 4 sessions in fall/winter with senior CC/NIH leaders
  - Context for review of organizational priorities:
    - *People*
    - *Census & Space*
    - *Capabilities*
  - Next Steps:
    - Formalize plan
    - Review/approval by CCGB
    - Presentation to CCRHB
- **Goal:** Strategic Plan Completion in 2019
